WHAT OUR GUESTS HAVE TO SAY!

We had a wonderful time celebrating a birthday at Angie & George's place. It was very clean, accurate, and cozy. The neighborhood deer even came up to the driveway for us to feed! So cool. The bunk room is probably great for kids but not ideal for adults. The beds weren't that comfortable. The other two rooms are great though! Very comfortable and the bathrooms are great too. I'd definitely recommend staying here!

About Us

In the Beginning:

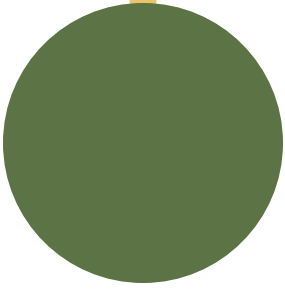

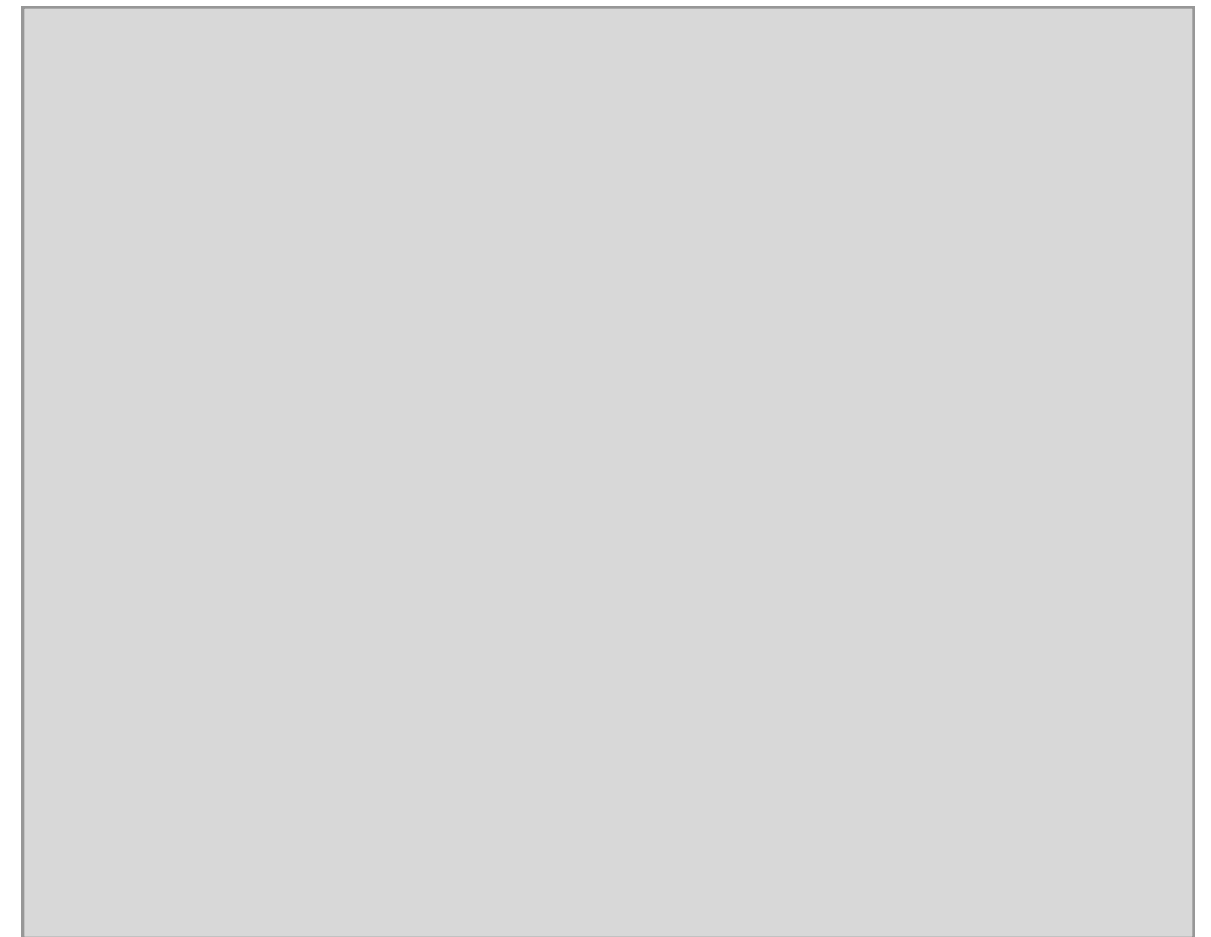

In the summer of 1998, a 12-year-old Paul Fuller needed money. Luckily, (insert giggle) his father had taught him how to maintain the family yard. This was a skill he could put to use. Therefore, every weekend Paul would be that kid who pushed a lawn mower from house to house asking for work.

With the help of his father, a beautiful flyer was created and distributed throughout the neighborhood attracting regular customers.

Lorem ipsum dolor

Continuing throughout High School, Paul worked to grow and expand his business. Of course, he also grew his dating and social business. After a year of Junior College Paul married his sweetheart and came back to his business which now had only 2 customers. Again, he started growing his business by word of mouth and reliable quality work. On August 1st 2008 Paul's Lawn and Landscape incorporated and is now supporting his family which has grown to include 3 amazing kids.

Lorem ipsum dolor

Soon customers began asking for additional services such as planting trees and flowers or installing retaining walls and building shade structures. Landscape quickly became an additional service that has grown into a major company division providing a full line of landscape services.

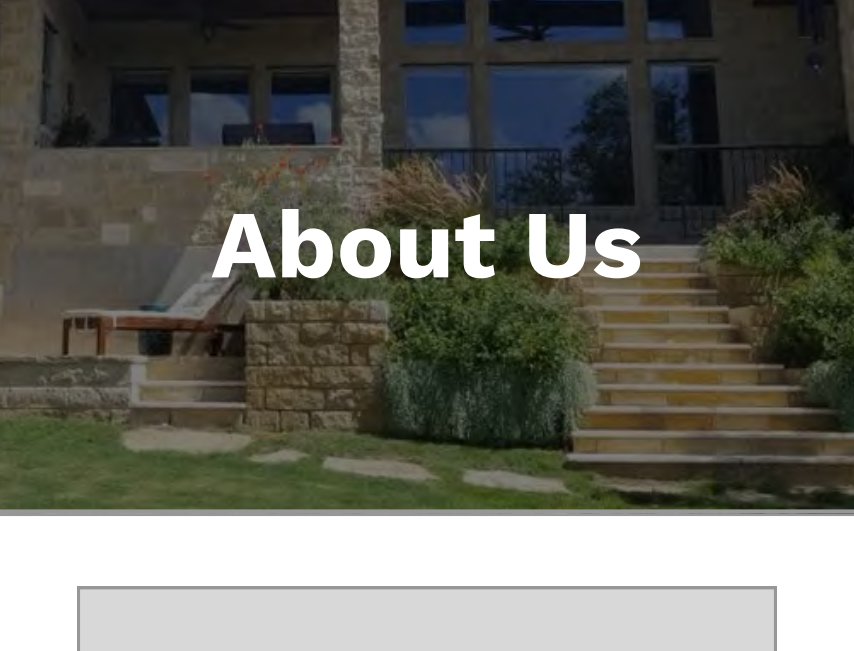

Paul's Company Philosophy

"I believe people should be given the opportunity to grow. Whether learning a new skill, providing for their families, or even encouraging them to start their own company. By mentoring my employees in life skills and jobs skills I hope to teach them to have a sense of pride in the work they perform.

Teaching them that the quality of work is more important than the quantity of work. Our customers benefit from this work ethic with outstanding service, reasonable prices and on time project completion."
